Quick Reference

9 - Input / Output

"Print Area" tool

Print Preview

Choose "Print Preview..." under the File menu:

- select the position of the drawing in the page under the Layout pop-up menu.
- under the Print Area pop-up menu, choose to print the whole drawing, the current selection only or a print area.
- select "Fit Print Area to one page" option to fit the print to the actual page.
- select "Print pen weights" option to print the drawing with the pen weights instead of hairlines.
- select "Print cut markers" to have the page margins printed
